

Java Developer Intern

Job Title: Java Developer Intern

Job Type: Internship (Full-Time)

Duration: 3–6 Months

Experience: Freshers / Students / 0–1 Year

Location: On-site / Hybrid / Remote

Stipend: As per company policy

About the Role

We are seeking a motivated and enthusiastic **Java Developer Intern** to join our development team. This internship is an excellent opportunity for students and recent graduates who are passionate about Java programming and software development. As a Java Developer Intern, you will work closely with experienced developers to design, develop, test, and maintain enterprise-grade applications while gaining hands-on experience with modern development tools and best practices.

Key Responsibilities

- Assist in designing, developing, and maintaining Java-based applications.
- Write clean, efficient, and reusable code following coding standards.
- Collaborate with senior developers to implement new features and enhancements.
- Debug, test, and troubleshoot software applications.
- Develop and consume RESTful APIs.
- Work with relational databases to design and execute SQL queries.
- Participate in code reviews and team discussions.
- Maintain technical documentation for developed features.
- Learn and apply software engineering best practices, design patterns, and version control.
- Stay updated with the latest Java technologies and frameworks.

Required Skills

Programming

- Core Java (Mandatory)
- Object-Oriented Programming (OOP)
- Basic Data Structures and Algorithms
- Basic SQL

Frameworks (Preferred)

- Spring Boot
- Spring MVC
- Hibernate / JPA

Databases

- MySQL
- PostgreSQL

Web Technologies

- HTML
- CSS
- JavaScript (Basic)

Development Tools

- Git & GitHub
- IntelliJ IDEA or Eclipse
- Maven or Gradle
- Postman

Additional Skills (Preferred)

- REST API Development
- JSON
- Basic understanding of Microservices
- Docker (Basic)
- Linux Commands
- Unit Testing (JUnit)

Educational Qualifications

- Bachelor's degree (or currently pursuing) in Computer Science, Information Technology, Software Engineering, or a related field.
- Final-year students and recent graduates (2024, 2025, or 2026 pass-outs) are encouraged to apply.

Preferred Qualifications

- Academic or personal projects developed using Java.
- Internship or coursework in Java programming.
- Understanding of software development life cycle (SDLC).
- Familiarity with Agile development methodologies.
- GitHub portfolio or coding profiles (preferred).

Soft Skills

- Strong analytical and problem-solving abilities.
- Good communication and teamwork skills.
- Quick learner with a willingness to explore new technologies.
- Ability to work independently and take ownership of assigned tasks.
- Strong attention to detail and commitment to writing quality code.

What We Offer

- Hands-on experience working on real-world Java applications.
- Mentorship from experienced software engineers.
- Exposure to enterprise application development using Spring Boot.
- Opportunity to work with databases, APIs, and modern development tools.
- Collaborative and learning-focused work environment.
- Potential opportunity for a full-time role based on performance.

Who Should Apply?

This internship is ideal for students and recent graduates who have a strong foundation in Core Java and Object-Oriented Programming and are eager to build a career in backend software development. Candidates with academic projects, personal projects, or a passion for learning modern Java technologies are encouraged to apply.

Apply now and kick-start your career as a Java Developer!
